

## Data Research Activity

---

**Objective:** We are building a database of Physicians and decision makers serving in Healthcare Segment in USA.

**Research Activity:** Firstly understand the instructions for each company. We are looking for decision makers especially the CVDM (Chief, VP, Director, Manager) and physicians in this assignment provided in the end of this document wherein you have to acquire the contact name and their respective details from each link according to the provided template and append their business emails (the emails should contain the domain of the company the contact serves in). In case business emails are unavailable for the specific contact, then you can acquire the personal emails along with the web URL i.e. the source from where the email was captured.

Also, find out the details of additional decision makers for each company (3-5 per company). **You are required to find out the details of the contact strictly on the basis of the provided template.**

**Job Titles:**

As provided in the corresponding instructions for each company.

Additional decision makers for all the companies given (3-5).

**Geography:** United States

**Volume:** 102 staff members + additional CVDM contacts per company

**Important Guidelines**

- **Business Activity:** the core/key business area in which the company/centre/institution/association is engaged. Example: hospital, medical centre, etc.
- **Founded In:** the year in which the company/centre/institution/association was founded.
- **Revenue (In Million):** the annual income for the corresponding company/centre/institution/association.
- **Employee Size / Physicians Size:** the total strength of workforce i.e. employee or physician in the company/centre/institution/association.
- \*Staff direct emails & telephone numbers are mandatory element of this assignment.
- Address details of the company should be sourced from company website.
- Address details of the company captured for the contact name should be the work location of the staff.
- Update the **Address Source** (source from where address details are available), **Staff Source** (source from where staff association with the company will be confirmed) and **Email Source** (source from where email id is available).
- Additional information of the company will demonstrate the research skills of the researcher.
- **Availability of Direct emails and telephone numbers are on best effort basis.**

Count of Staff	Company Name	Staff Source	Instruction
8	Advanced Vein Therapy	<a href="http://aboutavt.com/our-team/">http://aboutavt.com/our-team/</a>	Capture all the staff
